

## Margaret Casely-Hayford

### Occupation

Co-op Member Nominated Director

### Co-op Businesses traded with in last 12 months

Food and Legal Services

As a current Co-op MND, I continue to value the relationship between ethical growth and commercial success. I'd like more focus on colleague pay and conditions, reduction of plastic waste, measures that improve environmental impact and greater diversity. The Board should be accountable to members. That's achievable through information and transparency. Good boards should listen and collaborate with members. I want to encourage further co-operation within the community, member engagement and business success levels and commercial returns to ensure this.
